I am self-motivated with the ability to work independently, I am team-orientated, dependable, highly focused and I have strong decision-making skills. I also possess excellent communication skills with the ability to explain technical issues in a clear and concise way. I manage my time wisely, so I have the ability to keep several projects going at once but I always maintain a pleasant, easygoing attitude even when dealing with a heavy workload.

PROFFESIONAL EXPERIENCE| WHAT I CAN DO

- Troubleshooting problems that occur within the computer systems by tracking them down and finding a solution
- I have excellent analytical and critical thinking skills with the ability to solve the most difficult problems
- I also have the skills to train and educate all the subordinate staff members on how to use different systems efficiently, to help your company run more smoothly.
- I try to stay updated on all of the latest technologies and I have the ability to incorporate new programs and technologies into the system to enhance performance. I'm confident that I can contribute to the growth and development of your company.
